

Project Development Phase Sprint Delivery 3

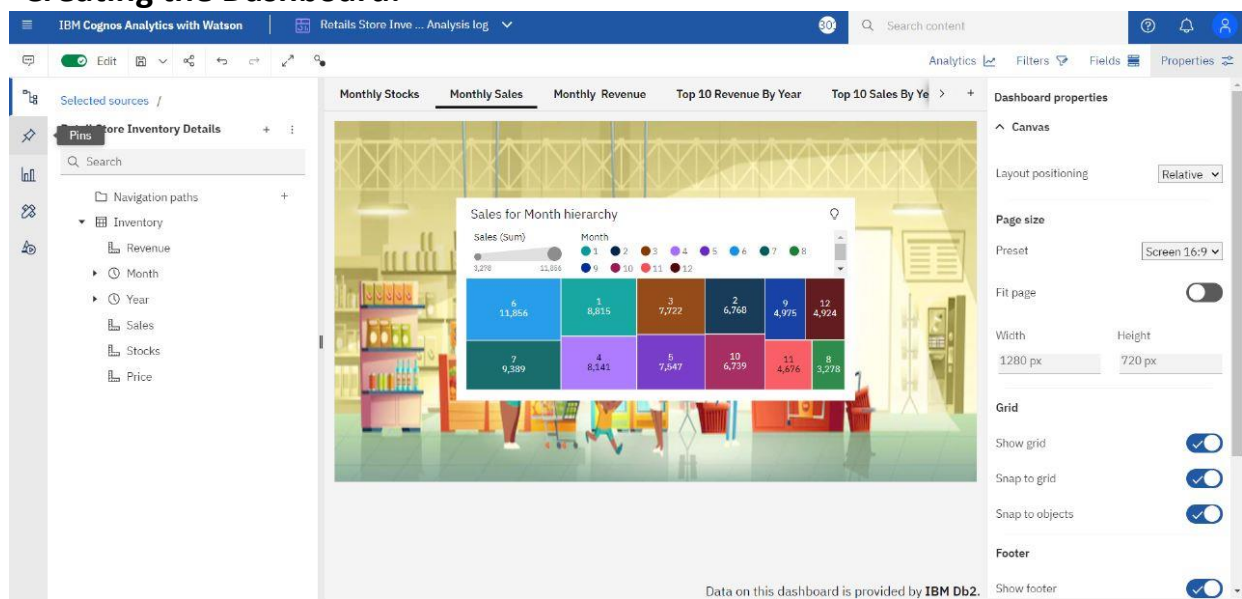

Team ID	PNT2022TMID08878
Project Name	Retail Store Stock Inventory Analysis

Project Development Phase:

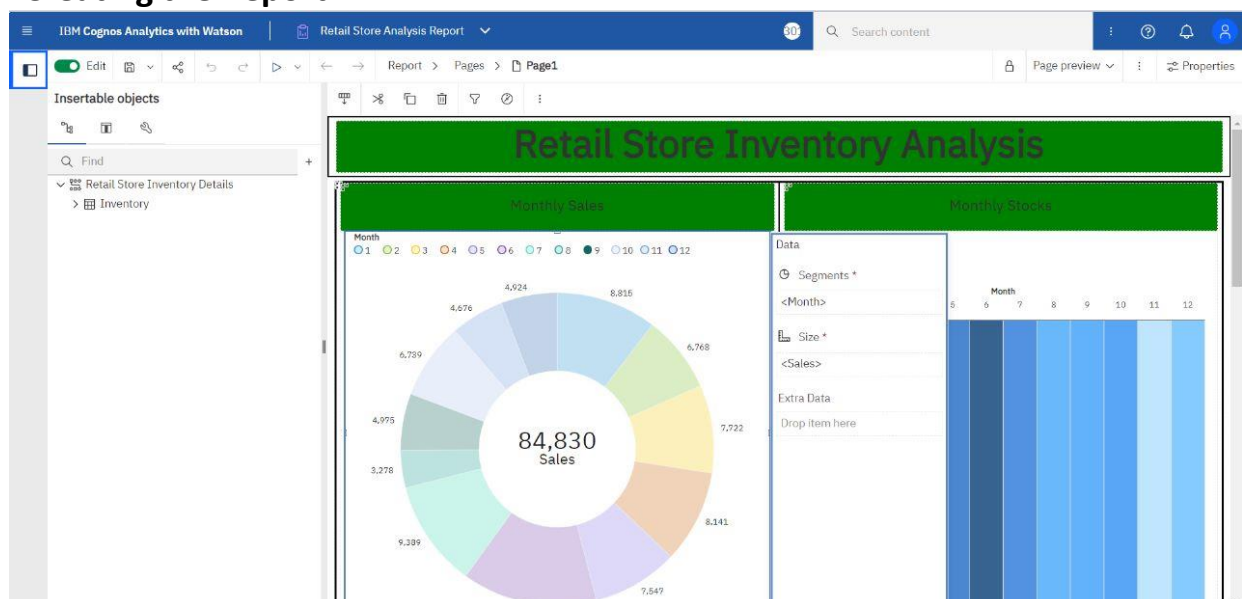

Sprint 3:

- Creating the Dashboard
- Creating the Report
- Creating the Story

Creating the Dashboard:

Creating the Report:

Creating the Story:

The screenshot displays the IBM Cognos Analytics interface for creating a story. The top navigation bar includes the title 'Retail Store Inventory Story' and a search bar. The left sidebar shows a tree view of data sources under 'Retail Store Inventory Details', including 'Navigation paths', 'Inventory', 'Revenue', 'Month', 'Year', 'Sales', 'Stocks', and 'Price'. The main workspace is divided into two panels: 'All scenes' and 'This scene'. The 'This scene' panel shows a story slide with a background image of a retail store and a large black box containing the text 'Retail Store Inventory Analytics'. Below the slide, there are five empty chart placeholders numbered 1 through 5. The bottom of the interface features a timeline and navigation controls, including 'Prev scene', 'Next scene', and a progress indicator showing 'Scene 1 of 6' and a duration of '0:03.9'.
